## COOKIE POLICY

### What are cookies

Cookies are pieces of information inserted on your browser when you visit a website or use social media on your pc, smart phone or tablet. Each cookie contains data such as the name of the server where it comes from, a numerical identifier, etc. Cookies can remain in the system for a session (i.e. until you close the navigation browser) or for longer periods and can contain a single identification code.

### What are they used for

Cookies are used to complete IT-authentications, to supervise sessions and save specific information about the users who visit the website. They are often useful as they can make the navigation and use of the web faster, making some procedures easier such as online purchases or authentication to restricted areas or by saving language preference.

### Types of cookies

Cookies can be distinguished in:

- **Technical cookies:** Technical cookies are those used for navigation or to provide a service requested by the user. They are not used for any other purpose and are usually installed by the owner of the website. Without these cookies some of the operations might not be completed or would be more complex or less secure, such as home banking (displaying of bank statement, transfers, payment of bills, etc.). For these types of procedures cookies are essential, as they provide identification of the user during the whole session.
- **Profiling cookies:** These cookies are designed to track the navigation of the user on the net and create user profiles according to his interests, habits and choices. With these cookies targeted advertising messages can be sent to the users device, in line with the preferences and interests expressed by the user during previous navigation sessions. To install this type of cookie a prior consent from the user is needed.
- **Third-party cookies:** Some websites may contain cookies and content coming from a different website than the one the user is visiting and be placed on several areas of the page,

such as advertising banners, images, videos, maps or specific links to websites of domains from other servers than the one where the requested page is.

In other words, these cookies are directly installed by the managers of these websites or servers and are different to those who manage this page. These are the so-called Third-party cookies, that are usually installed for profiling purposes. To install this type of cookie a prior consent from the user is needed.

Our company uses cookies on our websites. In accordance with the measures taken by the Italian Data protection authority on the 08th of May 2015 and released on the GU nr.126 on the 03<sup>rd</sup> of June 2014, cookies can't be freely installed on the devices of the users, but have to respect a number of regulations.

Here below you'll find the analysis of the situation of the company in relation to those regulations:

### **COOKIES INSTALLED ON OUR WEBSITE**

Please find below a list of the cookies used on our website:

<b>COOKIES CONTAINED ON OUR WEBSITE AND ADMINISTRATOR</b>	The chart below provides information on the types of cookies we use on our website and shows if they are managed directly by our company or by third-parties. In case of cookies managed by third-parties we are unable to see the saved data and to intervene at all. For this reason you will find a link to their information note and to their forms to express or deny your consent. <u>Furthermore in this section you can give or refuse consent to profiling-cookies by checking the relevant box.</u>
---	--

<b>CONSENT</b>	<b>COOKIE</b>	<b>TYPE</b>	<b>COOKIE MANAGER</b>	<b>DESCRIPTION AND LINK TO THIRD-PARTY INFORMATION</b>
<b>nn</b>	<b>Session-cookie</b>	<b>X</b>	<b>Proprietario Third party</b>	The use of the so-called Session-cookies is strictly limited to the transmission of session-identification numbers (series of random numbers created by the server) needed to allow a secure and efficient navigation. The so-called session-cookies used by this website avoid the use of other IT-procedures that might endanger the privacy of

				<p>the users' navigation and hinder identification of the user's personal data.</p> <p>The collected aggregated information is anonymous and allows the analysis of the type of navigation on the site. They are useful in the long-term to improve the content of the website and make it easier to be used.</p> <p>Most browsers accept cookies automatically, but if you wish you can disable them completely or partially, by setting your preferences on the browser.</p> <p>If the user disables cookies completely, some sections of the page might be unavailable and some pages incomplete.</p> <p>In order to improve the website and identify the users' preferences, we use third-party cookies by Google Analytics, which are anonymous and aggregated analysis tools. Your IP-address is made completely anonymous by this integration of Google Analytics. We are not the owners of these cookies, for further information please refer to the information provided by <a href="#">Google</a>. <a href="#">Opt Out</a></p> <p>Some pages contain content provided by Google Maps, a service managed by Google Inc. This content is hosted on an external platform (Google) and is displayed on the page on which interaction is possible.</p>
nn	<p><b>Google Analytics with anonymous IP</b></p>	X	X	<p>When a user visits a page containing a map, cookies provided by Google Maps that may collect his data are installed. We are not the owners of these cookies, for further information please refer to the page <a href="#">information note by Google</a></p>

<b>nn</b>	<b>Widget facebook</b>	<b>X</b>	<b>X</b>
-----------	----------------------------	----------	----------

The pages of our website contain some widgets and buttons to share content of the website on Facebook and on his social media, also allowing interaction with our pages. We are not the owner of these cookies, they are created by Facebook when you use a widget o a button to share content. For further information please refer to the information provided by [Facebook](#)

**nn**= consent not necessary

**You can install other options on your browser to navigate without cookies.**

**Disable third-party cookies**

Third-party cookies are not essential for navigation. The user can change the default configuration by disabling them on his *browser*.

**Enable *Do Not Track***

Most state-of-the-art browsers have the option *Do Not Track* and are set to respect this option when enabled and automatically stop collecting your navigation data. Not all browsers however have this type of setting (discretionary)

**Enable "Anonymous navigation" mode**

When using this option, you leave no trace of your navigation. No site will remember you, the pages you visit won't appear on your chronology and all new cookies will be deleted. This function however does not make sure you're completely anonymous on the Internet, it's only used to remove your navigation data from the browser, whereas your navigation data will still be available to the managers of the websites and the connectivity providers.

**Block cookies permanently**

This option is possible on all browsers through some specific functions. Please remember however that every time you connect to the Internet you install new cookies, you should therefore cancel the cookies periodically. Some browsers offer automatic systems of periodical deletion of cookies.

Please find the options offered by the main browsers below: [Microsoft Windows Explorer](#), [Mozilla Firefox](#), [Google Chrome](#), [Apple Safari](#), Google Analytics by downloading a specific [plug-in](#) from the browser.

For further information concerning the cookies saved on your device and disable them individually please refer to the following link: <http://www.youronlinechoices.com/it/le-tue-scelte>
